Should this titular match come to Tonopah it will prove great publicity medium and will once more turn the eyes of the sport world to the greatest known mining camp the world has ever boasted.

Symptoms of Death.

The usual procedure in warfare to determine whether death has occurred is to inject fluerescine, according to the method of Dr. S. Leard of Marsellles. In the living the eye will take a vivid green color, as though an emerald had been set in the socket. If no coloration is observed within an hour or two after injection, it may be stated positively that the person is
